The new Olympus DS-2500 Voice Recorder boosts dictation efficiency

SYDNEY – 17 APRIL 2012 – Give efficiency a lift in your workplace with the attractively styled, metal-bodied Olympus DS-2500 digital dictation device. Ideal for busy professionals, this powerful tool allows users to record dictations and notes at the desk or on the go for enhanced productivity. The DS-2500 includes a host of useful features and functions for high quality recording in the professional DSS Pro file format, boasts versatile editing options, and provides the convenience of battery charging via USB. Used with a transcription kit, the DS-2500 will effortlessly facilitate dictation in any office.

The Olympus DS-2500's attractive silver metal case features controls for commonly used features on the side to enable intuitive one-handed operation. The remaining buttons are positioned at the front within easy reach of the thumb for comfortable, ergonomic handling. A bright, white backlit LED screen ensures a clear overview of all information relevant to recordings and assists in effortless navigation through a user-friendly menu.

For the ultimate recording quality, the robust DS-2500 saves files in the DSS Pro format, which was specially developed for professional speech recording. Various editing options – including insert, append, overwrite and partially erase – provide both control and flexibility. Important sections can also be flagged with index marks enabling transcriptionists to easily locate relevant parts of the dictation. Users can also adjust the sensitivity of the in-built microphone to clearly capture recordings in a range of settings and situations.

The PC and Mac compatible Olympus DS-2500 is supplied with a 2GB SD card for storing files. For complete versatility, memory can be extended at any time with extra SD cards. To enable continuous dictation, the batteries can be easily recharged via power via USB.

The DS-2500 can be paired with the optional Olympus AS-2400 Transcription Kit comprising a footswitch and headset. Using the included Dictation Management Software “DSS Player Standard” (or “DSS Player for Mac”), users can easily and efficiently manage their digital dictations.

The Olympus DS-2500 will be available from mid-May 2012 and retail at \$379 RRP.
