

Further expand what you can do with your PEN

Lens Converters

Easily get a new perspective and be inspired by the creative options available to you by using a lens converter. Add a Wide, Macro or Fisheye lens converter to the PEN 14-42mm MkII kit lens and discover a new world of photographic possibilities.

Wide Lens Converter
 Easily turn your M.Zuiko 14-42mm MkII kit lens into an 11mm ultrawide-angle lens (22mm equivalent) with this high-quality 2-element converter

Fisheye Lens Converter
 Take dramatic 120° fisheye pictures easily by adding this converter to the front of your M.Zuiko 14-42mm MkII kit lens

Macro Lens Converter
 Focus even closer for macro shots with this front of lens converter designed for the M.Zuiko 14-42mm MkII, M.Zuiko 14-150mm Ultra-zoom, and the M.Zuiko 40-150mm Telephoto zoom

MAL-1

Macro Arm Light
 Two bright LEDs on fully flexible metal arms that extend up to 6.6 inches. Mounts to the accessory port for macro shots or attractive close-ups of small items. The MAL-1 is ideal for photographing small objects like jewelry, miniature scale models and small insects.

PEN-PAL

Bluetooth® Communication Unit
 Store up to 2600 images and transfer them via wireless Bluetooth® to other Bluetooth-enabled devices, such as a smart phone, or even another PENPAL-equipped camera. Makes online picture sharing easy.

For use with PEN E-PL2 only.

PT-EP03

Underwater Housing
 Take the E-PL2 down to 40 meters underwater with this protective underwater housing, you can. This durable housing features an optical glass filter with multi-coating on both sides to minimize reflection and is customized to ensure complete control of all camera functions. Used with the M.Zuiko 14-42mm, 14-42mm MkII and 9-18mm lenses.

VF-2

Electronic Viewfinder
 Extremely high resolution eye-level viewfinder. Easily slides onto the accessory port and hot shoe of the Olympus PEN to provide 100% field of view and 1.5x magnification. Ideal for bright outdoor shooting.

FL-14

Electronic Flash
 An easy-to-operate external flash designed specifically for the Olympus PEN. With an equivalent Guide Number of 14. Enables flash illumination at an even further distance.

SEMA-1

External Microphone Adapter Set
 Adapter and stereo microphone for high-quality stereo sound recording. A 3.5mm standard microphone socket further enables the use of sensitive professional microphones for HD video capture.
